REVITALITY®

by SWISS LUXURY LIVING

Innovation in the **Art of Regeneration** and **Longevity**

The **Vision**

Revitality integrates the latest biohacking technology into purpose-built private spas, designed to perform protocols that enhance **athletic performance, beauty & overall wellness**.

Emulating exposure to extraordinary environments, Revitality activates some of the **most powerful responses of the body and mind** in special sequences to achieve unique effects.

The **Experience**

The complete Revitality configuration combines cryotherapy, a 4-in-1 sauna, an emotional shower, a cold plunge and a multi-sensory immersion relax lounge.

The user experience is like teleporting from the peak of a snow-capped mountain to scorched desert sands to polar seas to tropical storms and back again.

Revitality becomes a ritual for those who **seek to awaken the mind and body**.

THE REVITALITY PROTOCOLS
Complete Regeneration Cycle

REVITALITY®
by SWISS LUXURY LIVING

The **Elements**

At the heart of Revitality are two transformative innovations, custom-designed and exclusively crafted by **the premier German health tech manufacturer, Medner**.

An electric -110°C cryotherapy chamber & a 4-in-1 sauna for two where fine salt spray, red light, ionized oxygen, and harmonic frequencies work together to stimulate the natural process of regeneration.

The emotional shower from Gessi modulates the temperature and the pressure of the water in concert with the color and brightness of the lights, orchestrating **a sensory experience that relaxes, restores and resets**.

Our senses of sight, sound and smell play parts in the composition as well, respectively featuring 3D holograms, coordinated aromatherapy, and special soundscapes from Bang & Olufsen, for total immersion.

REVITALITY®
by SWISS LUXURY LIVING

The **Ambiance**

3D holograms enrich the room with healing natural wonders: the tides below and the northern lights above, dynamically shifting with each phase of the regenerative journey.

Specially designed soundscapes envelop guests in acoustic ecstasy, while the tailored **aromatherapy programs evoke deep feelings**.

The main material is CO_2-neutral bamboo, chosen for its sustainability and powerful natural antioxidant, anti-inflammatory and anti-microbial properties.

REVITALITY®
by SWISS LUXURY LIVING

The **Benefits**

ATHLETICS

Vibrant energy, deeply restorative sleep with uplifted mood

Enhance and accelerate muscle and injury recovery

Metabolism ignited for enhanced vitality and effortless calorie burn

BEAUTY

Profound, revitalizing detoxification

Visible, lasting radiance and graceful aging

WELLNESS

Elevated, natural immune rejuvenation

Unforgettable multisensory luxury experience
